

~~CONFIDENTIAL~~

1. The USIB Committee on Procurement of Foreign Publications (PROCIB) has had under consideration the issuance of a list of selected USSR serial publications held by PROCIB member agencies. It was decided to compile such a list from the reports submitted by the members to the CIA Library.

2. The present list is to be used in conjunction with the Library of Congress Serial Publications of the Soviet Union, 1939-1957, compiled by Rudolph Smits and published in 1958. The PROCIB list is a selected one, including only those titles which reflect necessary omissions in the Library of Congress list. The emphasis is on military titles which may or may not be classified either because of the method or the source of procurement. The Library of Congress holdings are those from the Smits list. No attempt has been made to check current holdings at the Library of Congress.

3. There are two abbreviations used throughout the PROCIB list to indicate character of holdings: (m) for microfilm, and c for complete.
